SUMMARY

Information Technology graduate with internship experience in IT support and a foundation in software development. Seeking an opportunity to apply technical problem-solving skills while continuing to grow professionally.

EDUCATION

Bachelor of Science in Information Technology, Specialized Computing Graduated December 2025
Trevecca Nazarene University, Nashville, TN 3.8 GPA
Honors: Dean's List (All Semesters); Leadership Scholarship
Relevant Coursework: Software Architecture & Design, Advanced Data Structures & Algorithms, Operating Systems, Data & Database Management, Virtualization & Cloud Computing, Web Design & Development

TECHNICAL SKILLS

IT Support: Hardware Troubleshooting, Windows Deployment, Software Installation, Remote Access Support
Systems: Application Analysis, Systems Documentation, C4 Diagram Modeling, Architectural Documentation (arc42), Architectural Decision Records (ADRs)
Programming: Python, SQL, Java, C++
Certifications: Microsoft Certified: Azure AI Fundamentals (AI-900) – June 2026; AWS Academy Graduate: AWS Academy Cloud Foundations – November 2024

PROFESSIONAL EXPERIENCE

SynergyLabs, Hildebran, NC: IT Intern Jun 2025 – Aug 2025

- Supported a company-wide Windows 11 migration by assessing hardware compatibility, upgrading user systems, troubleshooting deployment issues, and facilitating successful hardware and software transitions
- Collaborated with Business Data Solutions (BDS) to implement secure remote access solutions and assist with technical evaluations
- Migrated UPS WorldShip and FedEx Ship Manager software and data during hardware and operating system upgrades, minimizing disruption to business operations

PROJECTS

Trevecca Parking Buddy Fall 2025

Collaborated to design the software architecture for a campus parking application.

- Developed architecture documentation using arc42, C4 diagrams, and Architectural Decision Records (ADRs)
- Defined system components, authentication, API interactions, and database design for the proposed application
- Evaluated architectural trade-offs to support scalable and maintainable system design

Carmike Cinemas Fall 2024

Designed a UX-focused mobile application prototype in Figma that earned a Gold ADDY Award for Interactive Design.

- Designed interactive wireframes and high-fidelity prototypes in Figma
- Created a consistent visual design system across multiple application screens
- Designed intuitive user flows for movie browsing, seat selection, and ticket purchasing

OTHER WORK EXPERIENCE

Autobell Car Wash, Denver, NC: Team Member May 2024 – May 2025
Land Rover Nashville, Brentwood, TN: Service Assistant Jun 2021 – Oct 2023
Dunkin', Franklin, TN: Crew Member Sep 2018 – Apr 2021

To Whom It May Concern,

I am pleased to write this letter of recommendation for Braeden Davis, who completed a summer internship with Synergy Labs in Summer 2025. During his time with us, Braeden was a key contributor to one of our major IT initiatives: upgrading our organization's computer systems from Windows 10 to Windows 11 across multiple departments.

Braeden approached this project with exceptional diligence and technical aptitude. He was fully responsible for our Windows 10 to Windows 11 upgrade project. He consistently delivered high-quality work, met deadlines effectively, and handled unexpected challenges with composure and resourcefulness. His attention to detail and systematic approach ensured the upgrade process was completed smoothly with minimal disruption to daily operations.

Beyond his technical contributions, Braeden stood out for his outstanding attitude and personality. He was always positive, collaborative, and eager to assist colleagues at any level. Braeden demonstrated a strong work ethic, he arrived prepared each day, took initiative when opportunities arose, and consistently went above and beyond what was required. One of his greatest strengths was his ability to learn quickly. He rapidly absorbed new concepts, tools, and procedures, often mastering them faster than anticipated and then applying that knowledge independently.

Braeden has a genuine passion for information technology and a natural talent for succeeding in technical environments. I am confident he will be a valuable and reliable member of any IT team fortunate enough to have him.

I recommend Braeden Davis without reservation and would welcome the opportunity to work with him again in the future. Please feel free to contact me at (828) 597-0393 or jelkins@synergylabs.com if you would like to discuss his performance or qualifications in greater detail.

Sincerely,

Jamie Elkins
IT Manager
Synergy Labs
